

BEAT THE PEAK

Summer 2024

To view the Curtailment Plan Tariff and what stage Liberty is currently in, please visit the **Water Rates and Tariffs** tab on libertyenergyandwater.com

Summer is here, bringing pool parties, outdoor barbecues, and hot summer days. As we live and play, summer also brings a peak in water usage. During Stage 1, Liberty still encourages customers to practice water conservation. One way to practice water conservation during the summer is to **Beat the Peak** by using less water when water use is expected to be at its highest, or peak, between 6:00 am and 9:00 am to help reduce strain on the water system. Below, you will find additional summer conservation tips and programs to help you **Beat the Peak** and save water. **Live. Play. Conserve.**

TIPS:

- Irrigation schedules should be changed when the seasons change. From April to September, water before 6:00 am.
- Adjust sprinklers so only your landscape is watered (not the house, sidewalk, or street).
- Upgrade existing irrigation systems to improve water use efficiency with tools such as weather-based irrigation controllers (WBIC) or drip irrigation.
- Shut off automatic water systems when it rains or install a rain sensing device.
 - If you receive over a ½" of rain, you can skip your next irrigation cycle!
- Collect and use rainwater to water your landscape.
- Use a shut off hose nozzle when using a hose.
- Use a broom instead of a hose to clean driveways, sidewalks, and other outdoor hard surfaces.
- Regularly check hoses, connectors, faucets, water lines, etc. for leaks and fix indoor and outdoor leaks as necessary.

PROGRAMS:

Liberty believes in empowering our customers with tools to help reduce water use. A few of our programs are highlighted below. To learn more about our programs or to sign up today, please visit www.libertyenergyandwater.com or email conservation@libertyutilities.com

WBIC program

Liberty is offering weather-based irrigation controllers (WBIC) with installation for qualifying customers at NO cost! Call WaterWise Consulting Inc. at 888-987-9473 to see if you qualify.

Conservation Kits

We offer simple, water saving devices to our customers at NO cost. We have indoor, outdoor, drip irrigation, winterize, and leak kits available. Click the button below to apply.

Toilet Replacement

This program offers up to two (2) ultra-high-efficiency toilets for qualifying customers at NO cost. Call EcoTech Services at 866-308-8391 to see if you qualify.

Water Audit

This program offers a virtual or in-person evaluation of the home as well as a report with tips on how to reduce water usage. Call WaterWise Consulting Inc. at 888-987-9473 to sign up.
