

Kickstart your summer with these savings tips

A few small steps could help you save water, which may also lower your bill.

Monitor Your Usage with My Account

Track your usage with easy-to-read graphs, helping you better control your usage.

Look for Leaks

Leaks are sneaky and can waste a lot of water over a short period of time, adding up to wasted money. Regularly check faucets, toilets, shower heads, and irrigation systems for leaks and repair them to help save.

Water Responsibly

Avoid runoff from your sprinklers by turning sprinkler heads toward your lawn or garden, not the sidewalk or your driveway.

Sign up for Liberty's Efficiency Programs

We offer a variety of water efficiency programs and resources to help you save more water, which may also help you save money on your bill.
