

Committed to our Veterans

Liberty Utilities is committed to our veterans and active duty military personnel. We want to celebrate the brave men, women, and their families who serve for our freedom. We are very proud to employ veterans and support those current and former members of the military with volunteering and financial support. As of June 2019, there are 145 veterans that work in our company across the United States.

Locally in Arizona, Liberty Utilities supports the Fighter Country Partnership, West Valley Veterans Success Center, and the Reveille Foundation.

- ▶ **Fighter Country Partnership** gives support for the men, women, and families of Luke Airforce base.
- ▶ **Veterans Success Center** helps military personnel connect with employment, training and benefits information as they transition to civilian life.

▶ **Reveille Foundation** is an organization that supports transitioning military, veterans and their families with holistic case management that creates individual plans for success and brings the community of resources together to execute these plans. Our employees stuffed Liberty Bags with much needed necessities for homeless veterans and also wrote letters of encouragement and best interviewing tips!

Liberty Utilities wants to thank all active-duty military and veterans for their service!

COMING SOON!

FUTURE HOME OF

PROUDLY BROUGHT TO YOU BY

Liberty Utilities is Moving Next Year!

Liberty Utilities is excited to announce we will be moving into a new building. In our ongoing efforts to be a sustainable company, we are building a new office on land we own as part of our Liberty Utilities Aquifer Recharge Facility (LARF) located on Camelback Rd. just west of Litchfield Rd. The LARF takes a portion of our A+ quality effluent from the Palm Valley Water Reclamation Facility, discharges it into large basins to percolate through the ground to assist with recharging the aquifer. The new office will be built on the land in front of the LARF with sustainability top of the mind, and will include an

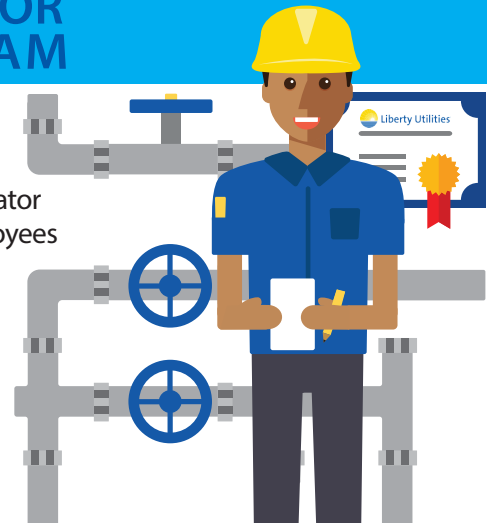

educational water efficient and pollinator garden, solar and battery storage, EV charging stations for electric vehicles, convenient walk in services and much more.

Construction on the site has begun. We expect to move into our new building in Fall 2020 and hope you will join us for an open house, stay tuned for details to come! In the meantime, we encourage you to follow us on Twitter (@LibertyUtil_AZ) and Facebook (@LibertyUtilAZ) for construction updates and additional information about our sustainability goals.

LIBERTY UTILITIES OPERATOR CERTIFICATION PROGRAM

Liberty Utilities recognizes the importance of operator certification in the water and wastewater industry to continually provide safe and reliable services. An Operator Certification Program was created to encourage employees to attain certification levels above the minimum requirement for their position. We have had operators go above and beyond to learn more about the water and wastewater industry with this program. Through learning programs like these, Liberty Utilities demonstrates that safe and reliable water and wastewater services will always be our priority.

Beat the

Stop the CLOG

Friendly FOG Reminder!

Fats, oils, and grease put down the drain can solidify inside the pipe and create a clog. To prevent interruptions from FOG, follow these do's and don'ts!

DO

- Pour cooled grease in a container with a lid and throw it in the trash.
- Use a paper towel to wipe grease or oil from cookware.
- Scrape food scraps into the trash.
- Encourage your neighbors to do the same!

DON'T

- DON'T** pour FOG down the drain.
- DON'T** Clean greasy dishes before wiping the grease off.
- DON'T** rinse food scraps off dishes into the sink.
