Call Before You Dig 811

Planting a tree? Installing a fence?
Planning a home improvement? **Call 811.**

Electric power lines, natural gas pipelines, water and wastewater pipelines, communications lines, and other utility services can be within a few feet of the ground's surface. Not knowing where they are can result in personal injury, property damage, and neighborhood service interruptions. Even a small dent or a scrape can cause damage, resulting in a leak or service-wide disruptions. If you're planning any type of excavation, call 811 at least 3 full working days before digging, drilling, or blasting. When you call 811, the national Call Before You Dig center will notify Liberty Utilities and other participating utilities, allowing us to mark our underground wires, pipes, or ables so you'll know what areas to avoid. This service is provided free of charge.
